## EDUCATION

**KIT – Kalaigarkarunanidhi Institute of Technology, Coimbatore**

B.E. Computer Science and Engineering, Pre-Final year

HSC – 72%

Current CGPA: 8.391/10.0

**Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Machine Learning, Artificial Intelligence

## EXPERIENCE

**LitzTech, Coimbatore** - Full Stack Intern (Offline)

June 2025 | 30 Days

- Completed a 30-day internship as a Full Stack Developer, gaining hands-on experience with Node.js and React.js for building scalable web applications.
- Developed an AI-powered interview bot using Node.js for backend logic and API integration, enabling automated question generation and real-time conversational responses.
- Utilized Sequelize ORM for efficient database management and implemented secure authentication with smooth frontend-backend communication to enhance user experience.

## PROJECTS

**Deep Analysis & Skin Disease Detection** | YOLO-NAS, ResNet50, Python, CV2, TensorFlow

Oct 2025

- Built a skin-disease detection model combining YOLO-NAS for accurate lesion detection and ResNet50 for classification, achieving around 63 - 72% test accuracy on dermatology datasets.
- Improved model performance through image preprocessing (augmentation, noise removal, normalization), which helped the system handle real-world variations in skin tones and lighting.

**Development of an AI-Enabled Healthcare Triage and Pharmacy Platform** | React.js, Node.js, SQL, NLP

Dec 2025

- Engineered a healthcare platform featuring an AI triage system to prioritize patient cases based on symptom severity.
- Integrated an automated pharmacy module with secure medicine ordering, inventory tracking, and digital prescription processing.
- Implemented NLP-based chatbots to provide medical guidance and streamlined the appointment booking workflow.

## TECHNICAL SKILLS

|        |          |            |         |                |                                              |      |
|--------|----------|------------|---------|----------------|----------------------------------------------|------|
| C      | Node.js  | AI& ML     | SQL     | Data Science   | RedHat – Linux Fundamentals (RH104-RHA)      | 2024 |
| C++    | React.js | DNN        | MongoDB | Android Studio | CISCO – Python Essentials 1, 2               | 2025 |
| Python | HTML     | OpenCV     | DSA     | Kotlin         | Juniper – Open Learning: CCNA to JNCIA-Junos | 2025 |
| Java   | DBMS     | YOLO       | Flask   | Research Skill | Infosys – Java Programming Certification     | 2024 |
| SQL    | Postman  | TensorFlow | Figma   |                | Coursera – Python Certification              | 2024 |

## CERTIFICATIONS & COURSES

## COMPETITIVE PROGRAMMING

**Leetcode** : Max rating – 1630+ | Solved problems: 135+ | Top 21.88% globally | Badges : 2

**Codeforces** : Max rating – 1440+ | Position: **Specialist** | Solved problems: 55+

**Codechef** : Max rating – 1635+ | Position : 3 Star | Division: 2 | Problems : 390+

**Global Rank** in Codechef : 13146

## ACHIEVEMENTS

- Selected for Smart India Hackathon (SIH) 2024**, contributing to innovative problem-solving and rapid prototyping.
- Engaged in a project under Vidhya Incubation**, collaborating on real-world development and research-driven solutions.
- Participated as a Full Stack Developer in the **ABB Hackathon**, creating intuitive interfaces and supporting team.

## VOLUNTEERING

- Managed scheduling, and team coordination for college technical and cultural events.
- Assisted juniors in understanding AI/ML concepts, project planning, and hands-on tool usage, fostering a collaborative learning environment.
